Lake View's Response to COVID-19

During this time of concern about COVID-19, the City of Lake View wants to assure our citizens that we will continue to provide the services our community depends upon, but we will be adjusting the way City staff interacts with the public in an effort to protect city staff members as well as the public.

Lake View City Hall will remain open during normal business hours and with normal staffing, but for the safety of our staff and the public, customers are encouraged to interact with City staff in ways other than personal contact, such as by using the telephone or other technology. Only the south door to City Hall will be open, and customers paying utility bills are encouraged to use the drop box as much as possible. Customers are also encouraged to pay their utility bills via US mail, on-line, or set up a recurring electronic payment. City staff will be available at City Hall to assist customers paying with cash.

If you have any questions about City operations during this COVID-19 emergency, please contact City Hall at 712-657-2634 or scott@lakeviewlifestyle.com.

Also, the Lake View Public Library will be closed until further notice beginning on Friday, March 20th. If you have questions about Library operations, please call the Library at 712-657-2310.

I offer my thanks to everyone for pulling together to address these challenging times.

Mayor John Westergaard
